A Familiar Board of Trustees

As residents are aware, an election took place in Frederick on April 6th in order to fill three seats on the Board of Trustees. While incumbents Tony Carey and Jim Wollack were re-elected to fill a second four year term, Rafer Burnham was added as a new member of the Board. Residents wishing to learn more about the Trustees can visit the town's website or visit a Regular Board Meeting or Work Session on Tuesday nights at Town Hall (please see the schedule on page two).

~~~~~

The new 175,000 square foot Frederick High School will break ground on Monday, May 17<sup>th</sup> at 4 p.m. While the ceremony will begin at the current FHS location, the shovels will hit the dirt on site at the corner of Colorado Blvd (CR 13) and Tipple Pkwy (CR 16) where the new facility will be built. Construction will start soon after the ceremony and will be completed in time for the beginning of the 2012 school year.

~~~~~

Commission Spotlight

The Youth Art Exhibit is currently showing at Bella Rosa Golf Course Clubhouse! This revolving art show and the town's annual art show held each October is coordinated by the **Art Advisory Commission**. The Art Commission was established in 2000 as an advisory body for the administration of the town's Art in Public Places program. The Commission consists of seven members and meets on the 1st Monday of each month at 5:00 p.m. at Town Hall. In addition to the annual and revolving art shows, the Commission advises the Board of Trustees on what public art projects to pursue and the placement of the art. Those interested in the Art Advisory Commission should contact Town Hall or visit the town's website and fill out an "Application for Appointment".

~~~~~

## Meet "Splash"

At the Grand Opening Celebration for the first phase of the enhanced Frederick Recreation Area (across from Safeway), residents will become acquainted with "Splash", the ectothermic host of this regional recreational amenity. The event will take place on Saturday, May 8<sup>th</sup> at 9:00 a.m. While the newly installed irrigated grass will just be coming in and the plantings will not yet be fully established, this event will be a wonderful opportunity for residents and visitors to see the work that has been completed on this regional park during the past several months and learn about all the efforts that have gone into making it happen.

~~~~~

Bait Your Hook!

After the FRA Grand Opening, be sure to stick around for a free day of fishing at the town's Annual Fishing Clinic where kids of all ages can learn from the Colorado Department of Wildlife about fishing techniques and environmental protection. While Saturday May 8th, 2010, is a "free fishing day" in Frederick, those wishing to fish in Frederick throughout the year must obtain both a State of Colorado fishing license as well as a Town of Frederick fishing permit. Permits for future use will be available the day of the clinic.

~~~~~

## Lake Aeration Project

After extensive planning and analysis, an aeration system has now been installed in Milavec Lake. The four large sub-surface "bubblers" are barely detectable to casual lake users, but by assisting with underwater circulation this new system will contribute dramatically to the overall aquatic health of the lake. Funding for this project was provided in part by a "Fishing is Fun" grant through the Colorado Division of Wildlife.

Parks and Open Space Advisory
Commission (Town Hall, 7 PM)

Opera Colorado

The education outreach program of Opera Colorado is coming to Centennial and Legacy Elementary Schools during May. Through the program students will be exposed to the art of Opera, which includes the story, music, and staging of this musical and theatrical art form. Staff from Opera Colorado will be leading this educational opportunity and their young artists in training will also be providing a performance geared towards acquainting young people with the beauty and majesty of this exquisite art. This program is being made possible by support from both schools' PTO programs, music staff, and the efforts and financial contributions of private individuals in the Frederick community.

A Friendly Reminder

With the warm weather upon us, the Police Department's Community Service Unit has seen an increase in animal-at-large calls. Often times, these pets do not have any identification. Please remember to provide your pets with proper identification and a town pet license tag. It is very helpful when pet owners include their address and phone number on the animal's tags. Residents should also provide their pets with a microchip and keep their electronic identification service up to date. If residents find their pet has escaped, they should call the Police Department immediately so that the town can assist in locating the pet it is impounded at the Longmont Humane Society. Owners whose pets are impounded will receive a court summons. The price for a dog-at-large summons with impound restitution can cost the owner hundreds of dollars!

The Planning has Begun

The Town of Frederick is starting the Parks, Open Space, and Trails (P.O.S.T.) Master Plan planning process and needs the help of all residents to create and refine a legacy of parks, open space, and trails. The first public meeting will be held on Thursday, May 20 from 6:00 – 8:00 p.m. at Town Hall.

Everyone is welcome, so bring family and friends and invite your neighbors! The town wants to hear your ideas and suggestions for parks, open space and trails. Also, be sure to visit the new P.O.S.T. website at www.FrederickPOST.org to learn more about the process, leave comments, get up-to-date information, and sign-up for automatic email notifications. Finally, look for more information about the P.O.S.T. online survey in next month's newsletter.

Biden to Visit Frederick!

With the recent award of a 45.1 million dollar federal reinvestment grant to UQM Technologies of Frederick (a technology leader in the development and manufacture of high-performance, power-dense and energy-efficient electric motors for consumer, farming, military, and specialized construction vehicles), the Vice President of the United States is scheduled to visit Frederick to help celebrate UQM's success. Most recently, the company signed a contract with CODA Automotive of California for an initial order of 20,000 propulsion units for use in a line of consumer sedans that will be marketed in dealerships in San Diego and San Francisco next year. UQM has announced that it intends to hire up to 400 new employees in the Frederick area this year as they ramp up their manufacturing capability. For more information about this remarkable local company, visit www.uqm.com.

An Advertising Opportunity

Does your business or community group need an opportunity to gain regional publicity? If so, plan to participate in the eighth annual Miners Day Celebration and advertise to a crowd of 3-5 thousand event-goers from around the community and region.

Miners Day offers a full day of entertainment and activities from the hot air balloon lift-off at 7 a.m. to the parade at 11 a.m. to the inflatables, contests, exhibitor booths, and musical entertainment throughout the day to the awesome fireworks show sponsored by Stevinson Lexus of Frederick at night. Visit the town website to learn more about this spectacular event that is taking place on Saturday, Sept 18th.

Fill it Out, Mail it Back!

As many are aware, there is a friendly, but high-stakes contest going on between Frederick, Firestone, and Dacono to see which community will have the highest participation percentage in the 2010 Census project. To date, Frederick has maintained the lead, currently at 80% participation, ahead of both Dacono (78%) and Firestone (76%). A winner of the contest will be determined on June 1st with the mayors of the two losing communities providing some form of potentially humiliating entertainment at the winning community's annual festival. If you have not turned in your Census form, please do so as soon as possible and help Frederick stay ahead!
